

**Viogene® Geno *Plus*™ Genomic DNA
Extraction Miniprep System**

Viogene® Geno Plus™ Genomic DNA Extraction Miniprep System

Viogene® Geno Plus™ Genomic DNA Extraction Miniprep System is designed for high efficiency genomic DNA extraction from a wide ranges of samples, such as cells, tissues, biological fluids, etc.

With enhanced buffer system, Geno Plus™ gives you a higher performance in genomic DNA extraction and provides the highest purity of genomic DNA for downstream applications.

Genomic DNA Extracted from Cells

- Higher genomic DNA yield
- Suitable for wide range of samples
- Simple and fast extraction protocol

Ordering Information

Product	Package	Contents	Cat. No.
Viogene® Geno Plus™ Genomic DNA Extraction System	50 preps	50 B/T Genomic DNA Mini Columns, Proteinase K, Buffers	GG2001
	250 preps	250 B/T Genomic DNA Mini Columns, Proteinase K, Buffers	GG2002

NO.10109B
